

Finalist Submission

Before the Final Submission Date
5/20/2019 at 5:00pm MDT

Complete and submit

1. Be sure to use at least one dataset from CIM
2. Upload all content used in your product/analysis (code, etc) into your team repo in the Go Code Colorado GitHub Organization.
 - a. If you have elected to use more than one repo, be sure to list and explain the purpose of each additional repo in your README
3. Use the [powerpoint template](#) to create a slideshow of your submission
 - a. The slide topics and order are intended to facilitate a smooth judging process
 - b. Changing the ppt theme, look and feel for your entry is encouraged
4. Document how to use your product or how to follow the data story of your analysis in your README
5. Fill out the [Finals](#) Submission Form
 - a. Specify your competition track -- Product or Analytics
 - b. Provide your official Final team member roster
 - c. List the datasets you used from CIM
6. Prepare for and attend the Final Event
 - a. May 30, 2019 in Denver at the EXDO Center
 - b. Product Track participants arrive early afternoon to familiarize with the stage and microphone, and stay through networking to give their final presentation to the Final Event audience. Product Track submissions have the option to give tabletop screen demos during the networking part of the program.
 - c. Analytics Track participants arrive early afternoon to give their tabletop widescreen demo and 5 minute data story with the judges as exclusive audience. Analytics Track submissions will follow this session with tabletop demos during the networking part of the program.
